

How was your day?

A 5-minute speaking activity: say one sentence with a real speaker, hear yourself, then answer the question about your own day.

Level A2–B1 **Time** 5–10 minutes **You need** a phone or computer with a microphone

Part 1 · Say the sentence with the speaker

00:25.9

“So, how was your day?”

1. Scan the QR code, or go to **sadaspeak.com/app** and tap **Try this line**.
2. Tap **Listen** to hear the speaker say the sentence.
3. Tap **Record**. After the 3-2-1 count, say the sentence **with** the speaker.
4. Sada plays your voice beside the speaker. Listen: is your rhythm close? Where do you pause?
5. Tap **Try again** two or three times. Each try gets a little closer.

Scan to practise

Part 2 · Answer the question about your day

Write two or three sentences. You can use these starters:

- My day was _____ because _____.
- In the morning, I _____.
- The best part was _____.
- Tomorrow I want to _____.

Now say your answer out loud. Say it again, a little more smoothly each time.

Part 3 · Ask a partner

Ask a classmate **“So, how was your day?”** Listen to the answer, then ask one more question: *“What was the best part?”* or *“Why?”* Then switch.

For the teacher

- **Goal:** natural rhythm and linking in a common question, then a short personal answer.
- **Free, no account:** Sada runs in the browser on phones and computers. Recordings stay on the learner's device.
- **Feedback:** Sada shows which words it recognised and plays the learner beside the speaker. It is not a pronunciation grade.
- **First visit:** learners can record and replay right away; the word match may take longer to appear the first time.
